

On Wednesday 14 August Staffordshire Police will replace its current website with Single Online Home (SOH).

SOH is a new interactive website where members of the public can report non-urgent crime, submit complaints or praise, make requests under the freedom of information act, view local crime statistics and seek advice on a range of crime types and crime prevention methods.

Along with Single Online Home, we also have the ability to allow the communities of Staffordshire to report crime via social media. Our Digital 101 team takes reports of non-urgent crime, seven days a week, 7am – midnight on Facebook and Twitter.

Should you need any further information please let me know.

Regards

Sgt 5383 Karen Green
Deputy Commander
